Subject: Thank You!

Jacki, Kush,

Thank you so much for the work you did to get the manganese issue the attention it has gotten. We aren't sure what SETF's next steps will be, but we are hopeful that we can improve the situation.

Petcoke piles gone, but another dangerous pollutant discovered in the air

## Petcoke piles gone, but another dangerous pollutant discovered in the air

By Michael Hawthorne

Dusty mounds of petroleum coke are gone from Chicago, but federal and city officials discovered a potentially mo...
